

# Luxury Now Pours From a Bottle

## OzWater™ Does the Body Good!

OzWater™ is premium advanced microstructured water. Our microstructuring process starts with basic spring water that undergoes a patented process that restructures the water through electrolysis. The restructuring process results in smaller water clusters, which enable it to impregnate the cells in your body more quickly and efficiently than ordinary H<sub>2</sub>O.

OzWater™ is infused with Original Himalayan Crystal Salt, the only substance on earth that contains all 84 minerals found in the human body. OzWater™ not only hydrates but also replenishes the body with these essential minerals.

Moreover, the salts contain an astounding amount of electrolytes. OzWater™ contains more electrolytes than many energy or sports drinks– but without the sugar and calories.

OzWater™ is ideal for cooking and drinking because it has an ideally neutral pH of 6.7, meaning it is completely balanced without elevated levels of acid or base that can both alter the taste of food and change the body's balance.

OzWater™ is clean and 99.9% pure and has no traces of arsenic, bromate, nitrates, metals or chlorine.

## Benefits from Proper Cellular Hydration

- Improved energy levels and reduced fatigue
- Softer skin and hair
- More effective detoxification of the whole body
- Better results from weight loss or wellness programs
- Improved performance at home, work or sports
- Increased feeling of well-being and quality of life

## OzWater™ is Scientifically Proven

We are the only structured water that has been proven to dramatically improve intracellular hydration. This was shown through mainstream scientific markers in a 30-day human clinical study. The average increase in cellular hydration wellness was an amazing 22.3%. Further analytical studies of OzWater™ compared to 40 other bottled waters have confirmed that OzWater™ has a unique profile of energetic and bio-chemical properties that appear to be ideal for hydration and wellness purposes.
